ERP DRAFT STAGE 1 IMPLEMENTATION PLAN

These documents are available on CD or on our website.

The CALFED Bay-Delta Program is a collaborative effort among 23 state and federal agencies (CALFED agencies) to improve water supplies in California and the health of the San Francisco Bay-Sacramento-San Joaquin River Delta Watershed. Under the current governance structure, the CALFED agencies cooperatively implement the Program through their respective agency program authorities, e.g., Federal Central Valley Project Improvement Act, State Proposition 13, State Senate Bill 23, etc. and pertinent funding mechanisms.

In their totality, the individual actions of the CALFED agencies represent the projects and accomplishments shown throughout this report. Additionally, the report's accomplishments are in some instances cumulative in that actions and projects undertaken by CALFED agencies have been ongoing and often pre-date the formation of the CALFED Program.

A fundamental premise of the Program is that the agencies can best meet their individual responsibilities by sharing information and cooperating with each other. The Program relies on the continuous cooperation of each participating agency, exercising its own legal authority and discretion.
